## Cloud Service Description (200 words or less)

Action1 is a cloud-native autonomous endpoint management (AEM) platform designed to help organizations manage and secure endpoints at scale. By enabling autonomous OS and third-party patching through peer-to-peer patch distribution and real-time vulnerability assessment without needing a VPN, it eliminates time-consuming routine labor, preempts ransomware and security risks, and protects the digital employee experience. Action1 is certified for SOC 2 and ISO 27001.
